Statewide Road and Bridge Program

In the spring of 2000, and prior to the passage of SAFETEA-LU, the Massachusetts Department of Transportation/Highway Division, in cooperation with FHWA's Massachusetts office and the state's regional planning agencies, developed a Memorandum of Understanding (MOU) requiring the Commonwealth to define, develop, and monitor a balanced statewide road and bridge program. This MOU required the Commonwealth to advertise projects for construction activities, exclusive of the Central Artery/Third Harbor Tunnel, at a minimum expenditure of \$400 million through fiscal year 2005. This commitment was later increased to \$450 million and extended through 2012. The following pages reveal the level of effort among the last three state fiscal years.
